Report on Anubhuti “A Forest Visit”

Dated - 22 January 2022

Venue – Mittal Institute Of Education

Time – 8:30am to 05:00pm

Report on Anubhuti “A Forest Visit”

Anubhuti is a state-wide programme initiated by the MP Eco Tourism Development Board in association with the MP Forest Department. The aim of the programme is to sensitize the students towards nature & wildlife, to educate them about the precautionary measures and Do's and Don't's of living in proximity to a forest, with special emphasis on how the wilderness spaces and the denizens living within are crucial to our own survival.

To this effect, the programme involves taking the students for a safari to help them understand the bio- diversity that exists in our forests and the inter-connectedness of all the denizens, followed by a de-briefing session re-iterating about the conservation value of our wilderness spaces with the help of a presentation and movie. The students are also taken on a nature trail wherein they are made familiar with the forest ecosystem and finally gains with an environment message are initiated with the students so that the message of forest protection is clear in their minds as they depart.

Mittal Institute of Education also organized an enjoyable trip for all MIE students along with all staff members on 22 January 2022. Total 40 heads counts were in the bus for the trip. College bus reached at 10:00am to Ratapani they were taken care by one of the Forest Guard of Ratapani. He gave his valuable knowledge and guidance all about forest and animal habitat. It was based on jungle trail in which students were showed Dancing tree, Very aged tree, Sagon tree, Ant hill and foot print of different Animals. Knowledge of food habit of animals also given by the coordinator

Students learnt and enjoyed a lot. After that expert lecture on snake given by Dr.Zafar khan, Dr.Neelu Quaiyumi also share her knowledge about the tiger. A quiz competition based on jungle trail was taken for the students and winner got a poster of wild life of Ratapani.

The idea behind the training programme was to equip the students with fine guiding techniques and enhance their already existing knowledge of the biodiversity and the forests.
