## **ABOUT THE ACTIVITY**

A Blood donation camp was organized by Barkatullah University, Bhopal in which a total of **56 students** have participated from various Educational Institutions of Bhopal. It was a gesture in bringing a ray of hope to contribute to the serious problems of acute shortage of blood. India faces a blood shortage of 3 million units. The problem can be addressed if an additional two percent of Indians donate blood, as opened by the Health experts. We need 12 million units of blood every year but just about nine million units are being donated. Our Institution has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our NSS volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives of many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it.

- This Blood Donation Camp was organized under **Fit India Movement Program** and **NSS Students** have very enthusiastically participated to make it a successful one.
- Certificates of Participation were also provided to all the students for becoming a part of the Blood Donation Camp.
