4. Register by clicking mentioned link.

I, II & III prizes will be awarded !!!

REPORT ON PRESENTATION ON GROUND WATER

DATED – 27th AUGUST 2022

VENUE – SANT HIRDARAM GIRLS COLLEGE BHOPAL

Department of Chemistry and Nature Club, Sant Hiradaram Girls College, Bhopal has organized Inter Collegiate Power Point Presentation on “Ground Water : Making Invisible Visible” on 27th August ,2022

Mittal Institute of Education motivated and sent two students namely Vivek Rajput and Deepak Meena from B.Sc-II Year to participate.

They registered themselves by a registration link and made a presentation on Power Point under guidance of Faculty Ms. Pratibha Dwivedi and Ms. Rohini Chaurasiya. They tried to cover all the aspects of Grey Water to justify the topic of competition.

In their presentation they covered -

- Grey water can be defined as any domestic wastewater produced, excluding sewage.
- The main difference between grey water and sewage (Black water) is the organic loading. Sewage has a much larger organic loading compared to grey water.
- Major benefits of grey water.
- Reducing the need for fresh water. Saving on fresh water use can significantly reduce household water bills,
- Reducing the amount of wastewater entering sewers or on-site treatment systems. Again,
- Benefits the individual household, but also the broader community.

They also prepared a model and presented effectively over there and bagged second position. Certificate and gifts were distributed to winners. Both were excited and thankful to SHGC and MIE to provide such platform.

Venue: Room No. 20 Commerce Wing SHGC

Date 27th August 2022

Time 10 AM
