2 Control of teaching process and service provision

College plans and carries out all courses related activities as per norms and guidelines given by University from time to time.

Controlled Conditions includes

- a) A unit plan is prepared, approved and displayed on notice board. The details provided are in the form of time table, topics, class rooms, lecturers/professors teaching the topics, practical's i.e. lab activities, tutorials etc.
- b) Wherever required, safety instructions are available to ensure that process is carried out in consistent and planned manner.
- c) The availability and use of suitable monitoring and measuring resources i.e. teaching aids like laptop, projector, and blackboards etc. The teachers are aware of the course syllabus. The syllabus is split into units by teachers to ensure adequate coverage by the stipulated time.
- d) Monitoring and measuring activities are carried out at various stages during teaching and after teaching as per unit plan to verify that criteria for control of processes or outputs and acceptance criteria for topics/syllabus are met
- e) Use of various required and suitable/capable teaching techniques like audio visual, use of projector, lap top, black boards with required measuring parameters/setting parameters and appropriate work environment for processes like adequate lighting, safety equipments.etc
- f) Engaging only trained/competent teachers for teaching are recruited.
- g) In case of emergency, if a particular topic is not covered during stipulated time, the same is covered later i.e. at a suitable convenient time to college, teacher & students by which it is ensured that all the topics to be covered during stipulated time are completed.

3. Identification and traceability

The college assigns unique identification number to every student. The information regarding students is maintained in admission forms, online and general register maintained year wise. The college also maintains traceability of old students as far as possible.

The materials like chemicals, equipments/instruments are identified by markings by college or the suppliers. Where such identification is not available, marking is given by the college when the item/material is stored & records are maintained.

During teaching, attendance of students is monitored in an attendance sheet form wherein date, time, topic, teacher etc are mentioned. These records maintained help the teachers to evaluate the percentage attendance of a student which is essential for examination purposes.

4. Monitoring, measurement, analysis and evaluation

General

MIE has determined

- a) What is to be monitored and measured for various academic programmes conducted
- b) The methods for monitoring, measurement, analysis and evaluation needed to ensure valid results
- c) When the monitoring and measuring shall be performed
- d) When the results from monitoring and measurements shall be analysed and evaluated.

5. Customer/Student satisfaction

As one of the measure of the performance of College strives to obtain student feedback i.e. students' perception on the courses offered/teaching process executed in order to assess level of student satisfaction. The students are requested to give their feedback .College's performance in the various aspects of their needs and requirements. The response is directly obtained from the student, their parents.

The data is tabulated and suitably analyzed to determine index of students satisfaction. If required, corrective actions are taken to improve the level of satisfaction.

The data is reviewed by the Management Review Committee during its meetings
