3. Guidelines For Prevention of “sexual misconduct” & Gender equality

In MIE class attendance is compulsory and thus parents are mandated to entrust their wards to our education system. As a result of this mandate, “trust” has evolved into the operative foundation of the relationship of students with their faculty. It is from this foundation that the duty of teachers to act as a fiduciary in their students' best interest and to create and maintain a safe environment for their students derives. *“Professional educators shall exert reasonable effort to protect the student from conditions which interfere with learning or are harmful to the student's health and safety.”*

For purposes of professional discipline, the MIE interprets the term “sexual misconduct” very broadly. Thus, in addition to criminal offenses where the victim may or may not be a student, the MIE considers sexual misconduct to include any act or conduct directed towards or with a child or a student of a romantic or sexual nature regardless of the age of the child or student, including any immoral, contact with the student as well as any verbal, non-verbal, written or electronic communication or physical activity designed to establish an immoral relationship, including but not limited to:

- a. sexual or romantic invitations;
- b. dating or soliciting dates;
- c. engaging in sexualized dialogue;
- d. making suggestive comments;
- e. exposure;
- f. self-disclosure of a sexual or erotic nature; and
- g. exchange of gifts with no educational purpose.

It is incumbent on all staff/faculty/students to safeguard the well-being of their students from dangers inside and outside the campus. Teachers must not only zealously guard against putting their needs before their students, but must also work to ensure that their colleagues conform to the appropriate standard of code of conduct. Faculties who ignore their responsibilities can be assured that their conduct will trigger discipline which in all likelihood will include the loss of employment and the suspension and/or revocation of their certification.
