

B.Sc

Program Outcomes of B.Sc

At the end of the three year B.Sc Program the students will be able :

PO 1	To understand the key concepts of science & scientific methodology
PO 2	To develop skills in applications of internet in scientific Statistical analysis.
PO 3	To gain familiarity & understanding of the principles of evolution and application of Sciences
PO 4	To demonstrate the ability to work effectively with computational, mathematical, and statistical approaches to acquire, analyze, and model experimental data.
PO 5	To demonstrate proper and safe laboratory practice, proper use of equipment, and the ability to use basic techniques effectively.
PO 6	To gain familiarity & ability to critically analyze scientific literature, research papers, and theoretical concepts.
PO 7	To gain familiarity with at least two branches of Sciences so as to appear for CDS
PO 8	To gain proficiency in scientific reasoning and logical thinking.
PO 9	To gain ability to apply scientific techniques to solve real-world problems in various fields.
