Session 2021-22

Visit to Share Trading Firm

Dated –20th Jan

Venue – Mittal Institute Of Education

Trading

Trading is one of the buzz words that has gained many followers in recent years. Trading consists of buying and selling listed assets with a lot of market liquidity (mostly shares, currencies and indexes) in an electronic financial market. Your goal is to make a positive profit in a short period of time.

It is a type of speculative stock market operation, which is normally carried out in very short time frames that can range from a few minutes to a few days. Its operations are based on buying an asset to sell it at a higher price or selling an asset, to buy it again at a lower cost.

One of the reasons why this trend has become popular is due to the entry of new technologies that allow operating on specialized online platforms and act as intermediaries for operations or brokers. In this way Mittal Institute of Education planned a visit of students to a well known share trading company NIRMAN SHARE BROKERS PVT.LTD. He Mr.Dinesh Bhatt sir. welcomed students along with faculties. They gave knowledge about share trading and discussed the ways by which we can do trading. Students gained conceptual knowledge all about it .they also gain knowledge about some apps. Certificate also provided to the students.

Coordinator - Dr. Ankit Jain

Total students visited - 22
