## **Theme of the Plantation Drive Conducted**

Tree Plantation is one of the best activities for making the planet greener, livelier, and healthier. Planted trees help our biodiversity, ensure the supply of oxygen for the next generations, and provide us with various resources. Without trees, the existence of human life, as well as other species on earth, is impossible. So, we should plant more and more trees. Planting trees is the ideal approach to support nature. Trees are the earth's life supportive network. When you plant a tree, you don't just plant a sapling but hope, hope for **“greener and healthier Future”**.
