Report on Van Mahotsav Celebrations

Dated 1st July to 7th July

- **Background-**

Van Mahotsav is an annual tree-planting movement in India, which began in 1950. The name Van Mahotsav means JANGALO KA FESTIVAL. It is a weeklong festival, celebrated on different days in different parts of India usually from 1 July to 7 July. July is the onset of the monsoon season in India – a time when tree planting is most likely to be effective. It has gained significant national importance and, every year, millions of saplings are planted across India in observation of Van Mahotsav week. K.M. Munshi started it. It began after a flourishing tree planting drive, which was undertaken in Delhi, in which national leaders like Dr Rajendra Prasad and Jawaharlal Nehru participated.

- **Need for Van Mahotsav-**

It was initiated to overcome the rising trees shortfall in India. Thus creating a void in sustainable development of the environment and our country. The constant felling of trees in India has been a problem for a long time, and Van Mahotsav is important in creating awareness of all these issues.

- Mittal Institute of Education in the first week of July 2021 organized various activities on account of Van Mahotsav Celebrations.
- The main objective behind this week long program was to promote afforestation programs and growth of trees. It also helped students in Acquiring knowledge regarding our Plants Biodiversity and its significance in everyday Life.

Only the winners of all the activities combined, were invited for the Ceremony following the Covid-19 protocol. Few of them also presented poems, slogans and essays on the podium. This also helped in boosting the confidence of our Students and making them feel acknowledged, recognized and important which indirectly upgrades their academic performances.
- The Prize Distribution Ceremony was concluded by the last but not the least Plantation activity in which all the students as well as the faculty members enthusiastically participated. The students also showcased great eagerness while planting the Saplings of various trees. They were also told about the importance of each tree that has been planted by them and were given simple instructions on how to take care of them. The curiosity to learn and will to create the change was clearly seen in the efforts of the students.

- Learning from all the Activities collectively-

1. The students learnt that Van Mahotsav is celebrated at the onset of Monsoon Season because the saplings planted during this Period have a greater chance of survival and blooming due to proper rainfall.
2. Emotional impact of trees and plants in addition to their Environmental roles.
3. The students were made to understand and appreciate the role played by planting and tending of trees in prevention of Global Warming, Pollution Control, and promoting Rainfall. This led to enthusiastic discussion among the students.
4. Promoting Forestation and making it as important as other daily personal work.
