Session 2021-22

Report On Vaccination Drive

Dated 06/09/2021- 17/09/2021

Venue – Mittal Institute of Technology

VACCINATION

India's nation-wide COVID-19 vaccination program was launched by Hon'ble PM on 16th January, 2021. Under his proactive and visionary leadership, India supported the research, development and manufacturing of COVID-19 vaccines under the "*Make-in-India*" and "*Make-for-World*" Strategy, embarked on the use of cutting-edge technologies like CoWIN for evaluating geographical coverage, promoting inclusivity and for providing a single reference point for citizens to follow their vaccination schedule, and prioritized vaccine administration based on scientific evidence and global best practices.

Several systematic interventions were also carried out in ensuring capacity building for carrying out this nationwide exercise. Existing supply chain for storage and transport of COVID-19 vaccines was leveraged and strengthened and effective monitoring of vaccine distribution and assured availability and efficient utilization of vaccines and syringes was ensured at all times.

India's free and voluntary nation-wide COVID-19 vaccination exercise is also being carried out in a citizen friendly approach through initiatives like Har Ghar Dastak, Workplace CVC, School based vaccination, vaccination of persons with no identity documents, Near-to-Home CVC and Mobile Vaccination Teams. With 71% of CVCs located in rural areas and over 51% of vaccine doses administered to women, India's National COVID-19 Vaccination Programme also ensured geographical and gender equity.

Vaccination drive was held at MGI campus by Mittal Institute Of Nursing from 6th June 2021 to 17th September 2021. Covidshield and Covaxin both vaccines were injected according to guidelines and availability of vaccines provided by Bhopal Memorial Hospital and Research Center.

Nearby residents, students and staff members along with their friends and relatives and others were vaccinated in this drive. At Mittal Group of Institute all arrangements like registration, waiting room and after vaccine observation room were very nicely arranged. More than 1200 people were vaccinated in this drive.
